**BUSINESS**

Our Company is a non-deposit taking systemically important NBFC registered with the RBI and the equity shares of our Company are listed on NSE and BSE. Our mission is to provide access to financing to the underserved MSME sector, which is critical to Indian economic growth and employment creation, and yet suffers from a chronic lack of affordable, efficient and sustainable credit availability. MSMEs represent the most important organic method by which the country's impoverished can come out of the so-called 'Poverty Trap'. Despite the challenges faced during the pandemic year, our Company has received various recognitions and awards including, (i) featuring in the Top 5 Digital / Fintech Lending Companies for MSMEs by BW Disrupt & IBS Intelligence, (ii) ET Best BFSI Brand of the year award for FinTech Category, (iii) Best MSME Lending Company by World Leadership Congress and Awards, (iv) Quick Loan Approval Award and Best Lending Tech of the year Award by National Award for Excellence in Financial Services Marketing and few others.

U GRO's Business Model hinges on marrying the traditional branch-based lending approach with the modern FinTech based Lending. It is an amalgamation of multiple business models and brings in expertise through effective use of Technology. It brings in sector, geographical and product specialisation and combines with new age technology platforms.

Our Company has set up its lending business primarily driven by analytics driven digital lending platform, which enables delivery of customized offerings to loan applicants. Our Company has made significant investments in technology which enables faster application-based disbursements, thus reducing the operating costs and containing risk. Our Company's robust credit underwriting model processes the same information as required in any traditional underwriting process including credit history, income and demographic details etc. We believe our investments in analytics in today's digital era will provide us with a competitive edge over traditional players which are dependent on a branch-based model to acquire and service customers.

U GRO Capital lends exclusively to MSMEs and caters to all the borrowing needs through its diverse range of product offerings like Term Loan (Secured and Unsecured), Supply Chain Financing, Machinery Loan and Short-Term financing through its multiple FinTech and NBFC Partners. It lends to customers right from the prime segment (<10% interest rates) to the micro enterprises (20-25% interest rates). Additionally, it does co-lending with FinTech and smaller NBFC Partners to expand its reach and lend to the micro enterprises through the length and breadth of India. While it has maintained a keen focus on the initial prime/near-prime target segment, it has also worked towards addressing a broader demographic as per our efforts to solve India's MSME credit gap. Additionally, with its lending experience, it has carved out microenterprises as a sector itself. Microenterprises behave as a homogenous group by size rather than by sector, making it ideal to underwrite them.
